Notes:

[111] 'Visible minority' refers to whether a person is a visible minority or not as defined by the Employment Equity Act. The Employment Equity Act defines visible minorities as "persons other than Aboriginal peoples who are non-Caucasian in race or non-white in colour." The visible minority population consists mainly of the following groups: South Asian Chinese Black Filipino Arab Latin American Southeast Asian West Asian Korean and Japanese.

In 2021 Census analytical and communications products the term "visible minority" has been replaced by the terms "racialized population" or "racialized groups" reflecting the increased use of these terms in the public sphere.

For more information on visible minority and population group variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Visible Minority and Population Group Reference Guide Census of Population 2021.

[112] In 2021 Census analytical and communications products the term "visible minority" has been replaced by the terms "racialized population" or "racialized groups" reflecting the increased use of these terms in the public sphere.

[113] The abbreviation "n.i.e." means "not included elsewhere." This category includes persons who provided responses that are classified as a visible minority but that cannot be classified with a specific visible minority group. Such responses include for example "Guyanese " "Pacific Islander " "Polynesian " "Tibetan" and "West Indian."

[114] In 2021 Census analytical and communications products this category is referred to as "the rest of the population."

[115] 'Ethnic or cultural origin' refers to the ethnic or cultural origins of the person's ancestors. Ancestors may have Indigenous origins origins that refer to different countries or other origins that may not refer to different countries.

The sum of the ethnic or cultural origins in this table is greater than the total population estimate because a person may report more than one ethnic or cultural origin in the census.

The ethnic groups selected are the most frequently reported at the Canada level.

For more information on ethnic or cultural origin variables including information on their classifications the questions from which they are derived data quality and their comparability with other sources of data please refer to the Ethnic or Cultural Origin Reference Guide Census of Population 2021.
