Source: • Total average: calculations based on data. All other data: Statistics Canada, Profile of Marital Status, Common-law Status, Families, Dwellings and Households, for Canada, Provinces, Territories, Census Divisions and Census Subdivisions, 2001 Census. Cat. no. 95E0487XCB2001001.

Note: • Due to the random rounding of data, it is possible that the average for each village, provided by Statistics Canada, differs from the result that would have been calculated based on the number of households and the number of persons by household. The total average was calculated according to the total number of households and the number of persons in households, and this calculation could be different if it were to be produced by Statistics Canada, again because of the random rounding.
