Topic	Characteristic	Note	Counts		Rates			
			Total	Men+	Women+	Total	Men+	Women+
Household characteristics	Total - Private households by tenure - 25% sample data	50	550			100.0		
	Owner		0			0.0		
	Renter		545			99.1		
	Dwelling provided by the local government, First Nation or Indian band		0			0.0		
	Total - Occupied private dwellings by condominium status - 25% sample data	51	550			100.0		
	Condominium		15			2.7		
	Not condominium		530			96.4		
	Total - Occupied private dwellings by number of bedrooms - 25% sample data	52	550			100.0		
	No bedrooms		10			1.8		
	1 bedroom		60			10.9		
	2 bedrooms		260			47.3		
	3 bedrooms		120			21.8		
	4 or more bedrooms		105			19.1		
	Total - Occupied private dwellings by number of rooms - 25% sample data	53	550			100.0		
	1 to 4 rooms		330			60.0		
	5 rooms		115			20.9		
	6 rooms		65			11.8		
	7 rooms		35			6.4		
	8 or more rooms		10			1.8		
	Average number of rooms per dwelling		4.5			4.5		
	Total - Private households by number of persons per room - 25% sample data	54	550			100.0		
	One person or fewer per room		415			75.5		
	More than one person per room		135			24.5		
	Total - Private households by housing suitability - 25% sample data	55	550			100.0		
	Suitable		360			65.5		
	Not suitable		190			34.5		
	Total - Occupied private dwellings by period of construction - 25% sample data	56	550			100.0		
	1960 or before		0			0.0		
	1961 to 1980		35			6.4		
	1981 to 1990		120			21.8		
1991 to 2000		75			13.6			
2001 to 2005		40			7.3			
2006 to 2010		50			9.1			
2011 to 2015		175			31.8			
2016 to 2021	57	60			10.9			
Total - Occupied private dwellings by dwelling condition - 25% sample data	58	550			100.0			
Only regular maintenance and minor repairs needed		405			73.6			
Major repairs needed		145			26.4			
Total - Private households by number of household maintainers - 25% sample data	59	550			100.0			
One-maintainer household		380			69.1			
Two-maintainer household		155			28.2			
Three-or-more-maintainer household		15			2.7			
Total - Private households by age of primary household maintainers - 25% sample data	60	550			100.0			

15 to 24 years		25	4.5
25 to 34 years		125	22.7
35 to 44 years		125	22.7
45 to 54 years		100	18.2
55 to 64 years		100	18.2
65 to 74 years		55	10.0
75 to 84 years		15	2.7
85 years and over		0	0.0
Total - Owner and tenant households with household total income greater than zero, in non-farm, non-reserve private dwellings by shelter-cost-to-income ratio - 25% sample data	61	545	100.0
Spending less than 30% of income on shelter costs		530	97.2
Spending 30% or more of income on shelter costs		10	1.8
30% to less than 100%		10	1.8
Total - Occupied private dwellings by housing indicators - 25% sample data	62	550	100.0
Total - Households 'spending 30% or more of income on shelter costs' or 'not suitable' or 'major repairs needed'		285	51.8
Spending 30% or more of income on shelter costs only		10	1.8
Not suitable only		130	23.6
Major repairs needed only		80	14.5
'Spending 30% or more of income on shelter costs' and 'not suitable'		0	0.0
'Spending 30% or more of income on shelter costs' and 'major repairs needed'		0	0.0
'Not suitable' and 'major repairs needed'		55	10.0
'Spending 30% or more of income on shelter costs' and 'not suitable' and 'major repairs needed'		0	0.0
Acceptable housing		260	47.3
Total - Owner and tenant households with household total income greater than zero and shelter-cost-to-income ratio less than 100%, in non-farm, non-reserve private dwellings - 25% sample data	63	545	100.0
In core need		205	37.6
Not in core need		340	62.4
Total - Owner households in non-farm, non-reserve private dwellings - 25% sample data		10	
% of owner households with a mortgage	64	0.0	0.0
% of owner households spending 30% or more of its income on shelter costs	61	0.0	0.0
% in core housing need	63	0.0	0.0
Median monthly shelter costs for owned dwellings (\$)	65		
Average monthly shelter costs for owned dwellings (\$)	65	2000	2000
Median value of dwellings (\$)	66		
Average value of dwellings (\$)	66	300000	300000
Total - Tenant households in non-farm, non-reserve private dwellings - 25% sample data		540	
% of tenant households in subsidized housing	67	72.2	72.2
% of tenant households spending 30% or more of its income on shelter costs	61	2.8	2.8
% in core housing need	63	38.0	38.0
Median monthly shelter costs for rented dwellings (\$)	65	412	412
Average monthly shelter costs for rented dwellings (\$)	65	470	470
Total - Households living in a dwelling provided by the local government, First Nation or Indian band in non-farm private dwellings - 25% sample data		0	
% of households living in a dwelling provided by the local government, First Nation or Indian band spending more than 30% on shelter costs	61		
Median monthly shelter costs for dwellings provided by local government, First Nation or Indian band (\$)	65		
Average monthly shelter costs for dwellings provided by local government, First Nation or Indian band (\$)	65		

Notes:

[50] Tenure refers to whether the household owns or rents their private dwelling. The private dwelling may be situated on rented or leased land or be part of a condominium. A household is considered to own their dwelling if some member of the household owns the dwelling even if it is not fully paid for for example if there is a mortgage or some other claim on it. A household is considered to rent their dwelling if no member of the household owns the dwelling. A household is considered to rent that dwelling even if the dwelling is provided without cash rent or at a reduced rent or if the dwelling is part of a cooperative.

For historical and statutory reasons shelter occupancy on Indian reserves or settlements does not lend itself to the usual classification by standard tenure categories. Therefore a special category 'dwelling provided by the local government First Nation or Indian band ' has been created for census purposes.

[51] Condominium status refers to whether the private dwelling is part of a condominium development. A condominium is a residential complex in which dwellings are owned individually while land and common elements are held in joint ownership with others.

[52] Bedrooms refers to rooms in a private dwelling that are designed mainly for sleeping purposes even if they are now used for other purposes such as guest rooms and television rooms. Also included are rooms used as bedrooms now even if they were not originally built as bedrooms such as bedrooms in a finished basement. Bedrooms exclude rooms designed for another use during the day such as dining rooms and living rooms even if they may be used for sleeping purposes at night. By definition one-room private dwellings such as bachelor or studio apartments have zero bedrooms.

[53] Rooms refers to enclosed areas within a private dwelling which are finished and suitable for year round living. The number of rooms in a private dwelling includes kitchens bedrooms and finished rooms in the attic or basement. The number of rooms in a private dwelling excludes bathrooms halls vestibules and rooms used solely for business purposes. Partially divided rooms are considered to be separate rooms if they are considered as such by the respondent (e.g. L-shaped dining-room and living-room arrangements).

[54] Number of persons per room - Refers to an indicator of the level of crowding in a private dwelling. It is calculated by dividing the number of persons in the household by the number of rooms in the dwelling.

[55] Housing suitability refers to whether a private household is living in suitable accommodations according to the National Occupancy Standard (NOS)

'Housing suitability' assesses the required number of bedrooms for a household based on the age sex and relationships among household members. An alternative variable 'persons per room ' considers all rooms in a private dwelling and the number of household members.

Housing suitability and the National Occupancy Standard (NOS) on which it is based were developed by Canada Mortgage and Housing Corporation (CMHC) through consultations with provincial housing agencies.

[56] Period of construction refers to the period in time during which the building or dwelling was originally constructed.

This refers to the period in which the building was completed not the time of any later remodeling additions or conversions.

For properties having multiple residential structures this refers to the period in which the most recent structure was completed.

[57] Includes data up to May 11 2021.

[58] Dwelling condition refers to whether the dwelling is in need of repairs. This does not include desirable remodelling or additions.

[59] Refers to whether or not a person residing in the household is responsible for paying the rent or the mortgage or the taxes or the electricity or other services or utilities. Where a number of people may contribute to the payments more than one person in the household may be identified as a household maintainer. If no person in the household is identified as making such payments the reference person is identified by default.

[60] Primary household maintainer - The first person in the household identified as someone who pays the rent or the mortgage or the taxes or the electricity or other services or utilities for the dwelling. When more than one member of the household contributes to the payments the first person listed is chosen as the primary household maintainer. If no person in the household is identified as making any such payments the first person listed is selected by default.

The order of the persons in a household is determined by the order in which they are listed on the questionnaire. Generally an adult is listed first followed if applicable by their spouse or common-law partner and then by their children. The order does not necessarily correspond to the proportion of household payments made by each person.

[61] Shelter-cost-to-income ratio - Refers to the proportion of average total income of household which is spent on shelter costs.

Shelter-cost-to-income ratio is calculated for private households who reported a total household income greater than zero.

Private households located on an agricultural operation that is operated by a member of the household and households who reported a zero or negative total household income are excluded.

The relatively high shelter-costs-to-household income ratios for some households may have resulted from the difference in the reference period for shelter costs and household total income data. The reference period for shelter cost data is 2021 while household total income is reported for the year 2020. As well for some households the 2020 household total income may represent income for only part of a year.

For more information on household total income or shelter costs refer to the Census Dictionary: Total income and Shelter cost.

[62] Acceptable housing refers to whether a household meets each of the three indicator thresholds established by the Canada Mortgage and Housing Corporation for housing adequacy suitability and affordability. Housing indicator thresholds are defined as follows:

*Adequate housing is reported by their residents as not requiring any major repairs.

*Affordable housing has shelter costs equal to less than 30% of total before-tax household income.

*Suitable housing has enough bedrooms for the size and composition of resident households according to the National Occupancy Standard (NOS) conceived by the Canada Mortgage and Housing Corporation and provincial and territorial representatives.

Acceptable housing identifies which thresholds the household falls below if any. Housing that is adequate in condition suitable in size and affordable is considered to be acceptable.

Households below and above the thresholds are based on the indicators for which individual households can be assessed. Farm and on-reserve households whose housing does not meet either or both of the suitability and adequacy thresholds are counted in the total of households below the thresholds. Farm and on-reserve households who live in housing that meets both the suitability and adequacy thresholds are counted in the total of households above the thresholds (even though it is not possible to assess housing affordability for these households). Farm households and on-reserve households cannot be assessed for housing affordability because the concept is not applicable.

Housing affordability is assessed for owner and tenant households with household total income greater than zero in non-farm non-reserve private dwellings.

[63] Core housing need refers to whether a private household's housing falls below at least one of the indicator thresholds for housing adequacy affordability or suitability and would have to spend 30% or more of its total before-tax income to pay the median rent of alternative local housing that is acceptable (attains all three housing indicator thresholds). Housing indicator thresholds are defined as follows: Adequate housing is reported by their residents as not requiring any major repairs. Affordable housing has shelter costs equal to less than 30% of total before-tax household income. Suitable housing has enough bedrooms for the size and composition of resident households according to the National Occupancy Standard (NOS) conceived by the Canada Mortgage and Housing Corporation and provincial and territorial representatives. Only private non-farm non-reserve and owner- or renter-households with incomes greater than zero and shelter-cost-to-income ratios less than 100% are assessed for 'core housing need.' Non-family households with at least one maintainer aged 15 to 29 attending school are considered not to be in 'core housing need' regardless of their housing circumstances. Attending school is considered a transitional phase and low incomes earned by student households are viewed as being a temporary condition.

[64] Presence of mortgage payments refers to whether an owner household makes regular mortgage or loan payments for their dwelling.

[65] Shelter cost refers to the average monthly total of all shelter expenses paid by households.

Shelter costs for owner households include where applicable mortgage payments property taxes and condominium fees along with the costs of electricity heat water and other municipal services. For renter households shelter costs include where applicable the rent and the costs of electricity heat water and other municipal services. For households living in a dwelling provided by the local government First Nation or Indian band shelter costs include where applicable the monthly use or occupancy payment and the costs of electricity heat water and other municipal services.

[66] Value (owner estimated) refers to the dollar amount expected by the owner if the asset were to be sold.

In the context of dwelling it refers to the value of the entire dwelling including the value of the land it is on and of any other structure such as a garage which is on the property. If the dwelling is located in a building which contains several dwellings or a combination of residential and business premises all of which the household owns the value is estimated as a portion of the market value that applies only to the dwelling in which the household resides.

[67] Subsidized housing refers to whether a renter household lives in a dwelling that is subsidized. Subsidized housing includes rent geared to income social housing public housing government-assisted housing non-profit housing rent supplements and housing allowances.

Data quality:

Puvirnituk, Village nordique (VN)

Total non-response (TNR) rate, short-form census questionnaire: 36.0%

Total non-response (TNR) rate, long-form census questionnaire: 36.6%

Data quality index showing a long-form total non-response rate higher than or equal to 50% (use with caution).
