Notes:

[5] A census family is defined as a married couple (with or without children) a common-law couple (with or without children) or a one-parent family. For more information refer to the Census Dictionary: Census family structure.

[6] There is no age restriction on children. Includes children living with a grandparent or grandparents without a parent present.

[7] Includes foster children.

[8] Multigenerational households represent all households where there is at least one person who is both the grandparent of a person in the household and the parent of another person in the same household. They also represent all households where there is at least one person who is both the child of a person in the household and the grandchild of another person in the same household. In previous censuses multigenerational households were only created based on the former definition not the latter. As a result there may be small differences in counts for 2011 and 2016 in archived tables.

[9] Excludes multigenerational households.
