With a decrease in employment income less than 10%	15	5	0	0	0	0	0	15	0	0	0	0	5
With an increase in employment income	140	85	15	25	10	20	20	55	20	10	10	10	5
With an increase in employment income greater than 0% but less than 10%	15	5	0	0	0	0	0	10	0	0	5	0	5
With an increase in employment income 10% to 30%	35	20	0	0	0	5	0	20	10	5	0	5	0
With an increase in employment income more than 30%	90	65	15	25	5	10	10	25	15	5	5	0	0
With employment income in 2020 only	20	20	10	0	0	0	0	0	0	0	0	0	0
With employment income in 2019 only	35	30	5	15	0	10	5	5	5	0	0	0	0
No employment income in 2019 and 2020	70	70	45	10	5	10	0	0	0	0	0	0	0

Footnotes:

[1] Gender

Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman). Gender includes the following concepts: gender identity, which refers to the gender that a person feels internally and individually

[2] Given that the non-binary population is small, data aggregation to a two-category gender variable is sometimes necessary to protect the confidentiality of responses provided. In these cases, individuals in the category "non-binary persons" are distributed into the other two gender categories and are denoted by the "+" symbol.

[3] Age

'Age' refers to the age of a person (or subject) of interest at last birthday (or relative to a specified, well-defined reference date).

[4] Total income refers to the sum of certain incomes (in cash and, in some circumstances, in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

– Statistical units of social statistical programs such as persons, private households, census families and economic families

[5] All income received as wages, salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.
