Changes in income before and after the COVID-19 pandemic by 2019 income rank, age and gender, Data Tables, 2021 Universe: Population aged 15 years and over in private households, 2021 Census - 100\% data

Gender (1,2)
Age (3)
Total income decile group in 2019

Change in income between 2019 and 2020
Total - Population aged 15 years and over
With total income in 2019 and 2020 (4)
With no change or a decrease in total income
With a decrease in total income more than $30 \%$
With a decrease in total income $10 \%$ to $30 \%$
With a decrease in total income less than $10 \%$
With an increase in total income
With an increase in total income greater than $0 \%$ but less than $10 \%$ With an increase in total income $10 \%$ to $30 \%$ With an increase in total income more than $30 \%$
With total income in 2020 only
With total income in 2019 only
No total income in 2019 and 2020
With employment income in 2019 and 2020 (5)
With no change or a decrease in employment income
With a decrease in employment income more than $30 \%$
With a decrease in employment income $10 \%$ to $30 \%$
With a decrease in employment income less than $10 \%$
With an increase in employment income
With an increase in employment income greater than $0 \%$ but less than $10 \%$ With an increase in employment income $10 \%$ to $30 \%$
With an increase in employment income more than $30 \%$
With employment income in 2020 only
With employment income in 2019 only
No employment income in 2019 and 2020

Province or territory abbreviation: Que
Dissemination Geography Unique Identifier (DGUID): 2021A00052499110
Alternative geographic code: 2499110
Province or territory geocode: 24
Short-form total non-response rate: 17.5
Data quality flag: 01020
Data quality note: ..."
Footnotes:
1] Gender
Gender refers to an individual's personal and social identity as a man, woman or non-binary person (a person who is not exclusively a man or a woman). Gender includes the following concepts: gender identity, which refers to the gender that a person feels internally and individually
2] Given that the non-binary population is small, data aggregation to a two-category gender variable is sometimes necessary to protect the confidentiality of responses provided. In these cases, individuals in the category "non-binary persons" are distributed into the other two gender categories and are denoted by the " + " symbol.
[3] Age
'Age' refers to the age of a person (or subject) of interest at last birthday (or relative to a specified, well-defined reference date).
[4] Total income refers to the sum of certain incomes (in cash and, in some circumstances, in kind) of the statistical unit during a specified reference period. The components used to calculate total income vary between:

- Statistical units of social statistical programs such as persons, private households, census families and economic families
[5] All income received as wages, salaries and commissions from paid employment and net self-employment income from farm or non-farm unincorporated business and/or professional practice during the reference period.
