sources: • Statistics Canada 2001, 1996, 1991c, 1986c, 1981c.

notes: • The income classes used during the 1981 census do not permit an aggregation according to classes in excess of \$10,000, similar to those used in later censuses.  
• All the data entered are the aggregate of data rounded off randomly.
