

We see more women than men in 2005 whereas it was just the contrary in 1998. We have already seen that the female labour force in Nunavik increased by 84% between 1998 and 2005; here we see an increase a 31% increase of female workers in full-time positions outside Nunavik (from 162 to 212).

### 3.4 Location of jobs based outside Nunavik

**TABLE 3.3  
JOBS BASED IN THE MONTREAL AREA  
VERSUS OTHER LOCATIONS PER TYPE**

	Full-time		Part-time		Seasonal		Casual	
<b>Total</b>	393		42		33		9	
Montreal	386	98%	42	100%	14	42%	9	100%
Other locations	7	2%	0	0%	19	58%	0	0%

Almost all the jobs outside Nunavik considered in the 2005 survey are located in the Montreal region (including Baie-d’Urfé, Ville St-Laurent, Dorval, Westmount, etc.): 98% of full-time positions, 100% of regular part-time and casual jobs; only seasonal employment shows a majority of positions outside Montreal because of the jobs in fisheries.<sup>3</sup>

All the jobs together, 95% are located in Montreal:

<sup>3</sup> Again, we only registered jobs in organizations connected with Nunavik and where there were real job opportunities for the Inuit of Nunavik. For instance, jobs in Nunavut are not part of the survey because the job opportunities there first go to Inuit from Nunavut. Same thing for jobs in the Cree territory that first would go to the Crees.
